

Technical Data Sheet

SCP625

Extra Strength Emulsion Remover

DESCRIPTION

SCP625 is a "Ready to Use" extra strength emulsion remover designed to be fast, efficient and environmentally friendly. This aggressive, non-caustic cleaner attacks and easily remove emulsions and capillary films from screens. Formulated with powerful degreasing and wetting agents to eliminate extra steps and leave the screen degreased and ready to use. SCP625 is economical and user friendly due to it's strength and ready to use concentration which translates into faster production savings. SCP625 is environmentally friendly, biodegradable and contains no VOC's.

ADVANTAGES

Fast Acting	Biodegradable	Non-Flammable
Non-Hazardous	Contains No VOCs	No Odor

DIRECTIONS

This container of SCP-625 is Ready to Use, right from the container but can be diluted up to 1:5 (1 part chemical: 5 parts water) depending on emulsion type and method of application. After determining proper ratio for your needs, mix contents in plastic container and fill with appropriate amount of water.

Spray on SCP-625 in a uniform pattern onto the print contact side of the screen. In some cases better results are obtained by applying SCP625 onto both sides of the screen. Allow to stand for 30 seconds to 3 minutes depending on the type and hardness of the emulsion. Remove the emulsion using a medium to high pressure cold water rinse. Flush the screen with a final rinse to remove any trace chemicals left on the screen. Allow to dry completely before recoating.

TYPICAL PRODUCT PROPERTIES

Appearance	Clear, colorless liquid
Odor	None
pH	3.5
Flash Point	None
Specific Gravity	1.14
Weight, per U.S. gallon	9.5 lbs.
Stability	Stable
DOT Shipping	Non-hazardous

AVAILABLE PACKAGE SIZES

5 Gallon
1 Gallon
1 Quart
1 Pint
